

Installation agent RG sous windows

- Exécuter le fichier .exe
- Saisir l'adresse mail du compte admin du dashbaord RG

The screenshot shows a window titled "Authentification (1 / 2)". On the left is the "RG SYSTEM" logo. On the right, there are two input fields: "Adresse e-mail" and "Mot de passe". Below these is a checkbox labeled "Récupérer l'historique" and a "Connexion" button. At the bottom left is a "Paramètres réseaux" button, and at the bottom right is a link: "Cliquez [ici](#) pour créer un compte".

- Saisir le noeud, le nom de la machine/serveur et cliquer sur install & register

The screenshot shows a window titled "Registering (2 / 2)". On the left is the "RG SYSTEM" logo. On the right, there are three fields: "Node" (a dropdown menu), "Computer" (a text field with a star icon), and "Install path" (a text field showing "(x86)/RG-Supervision" with a star icon). Below these is an "Install & Register" button. At the bottom left is a "Network settings" button.

L'installation de l'agent sur la machine à réussi
